

SPECIAL MACHINES & AUTOMATION

Improving Productivity. Increasing Quality. Reducing Labor. Enhancing Safety.

From the simplicity of an elegant tool to a completely automated process and assembly machine, Ehrhardt's extensive experience can provide an integrated solution that results in improved efficiency, quality and throughput. This experience combined with our focus on building long-term partnerships has led to outstanding relationships with many of the world's leading OEMs.

The Ehrhardt Advantage

By working closely together at the very inception of a project, many of our customers view us as an extension of their own design team. As a result, Ehrhardt has produced tooling and automated machines that are recognized for their quality, reliability and efficiency across a number of industries worldwide.

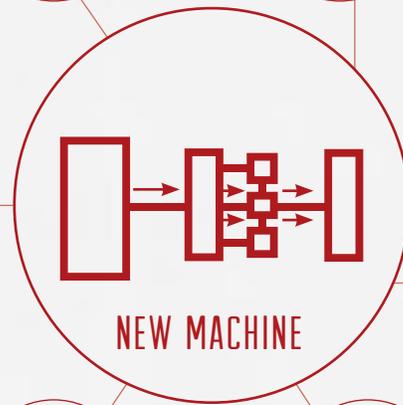

IMPROVE QUALITY

REDUCE LABOR

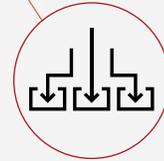

ENHANCE SAFETY

REDUCE SPACE REQUIREMENTS

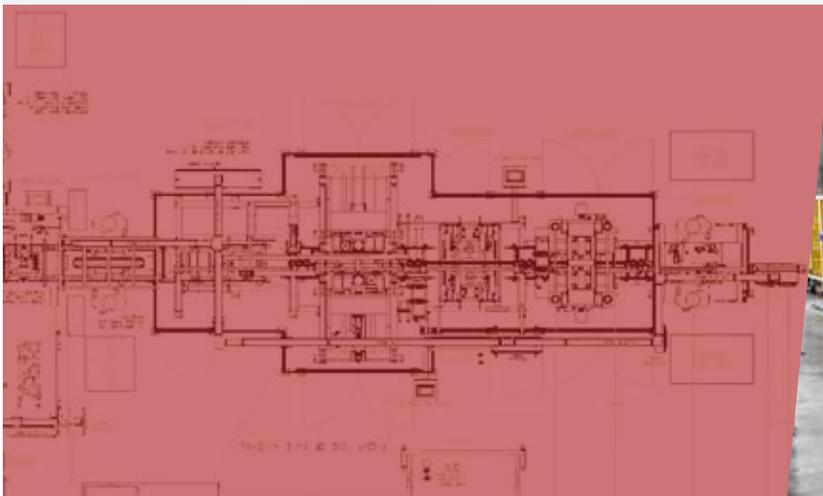

REDUCE COSTS

INCREASE THROUGHPUT

The end result is simple... Ehrhardt machines produce measurable results that significantly improve customer processes.

Ehrhardt Engineered Solutions

SPECIAL MACHINES & AUTOMATION

Improving Productivity. Increasing Quality. Reducing Labor. Enhancing Safety.

Automated Machines for Complex Problems

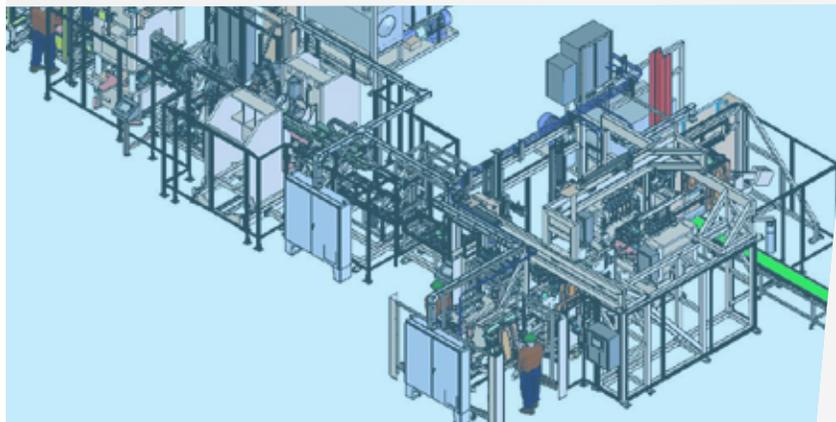

Developing a great design requires a unique combination of experience, imagination and technical knowledge that is produced regularly at Ehrhardt. We utilize our experience and knowledge of machine design, fabrication, automation and mechanical engineering to design and build highly specialized machines that simplify complex production problems. Ehrhardt machines can also be integrated into your current production line.

Capabilities

- Hydraulic and pneumatic experts
- Electrical and controls engineering
- Programming and PLC experts
- User interface design
- In-house machining and fabrication
- 3D modeling and design
- Remote machine access for troubleshooting

Built to Stand the Test of Time

We build our machines to stand the test of time. In fact, many of our machines have been in continuous use for decades and are still going strong.

Exceptional Service

Each Ehrhardt machine is delivered to our customer with a complete documentation package that includes design, prints and other necessary data. We set up, run-off to customer requirements, train their team and provide ongoing support after the sale to ensure smooth operation and productivity.

Innovative Solutions

From design and manufacturing to fully integrated systems, Ehrhardt has provided high value and innovative solutions to industry for over 75 years.
